## Grove Avenue Substation Grid Transformation Project

At Dominion Energy, we are committed to keeping you informed of construction activities in your community. You are receiving this postcard because we want to update you on the construction schedule for Grove Avenue Substation located off Westview Avenue in Richmond, Virginia.

SCAN HERE  
TO LEARN  
MORE

We originally anticipated construction would begin in spring 2024. However, delays to the project schedule have pushed the start date to fall 2024 or early in 2025.

This project is part of our Grid Transformation Plan that will modernize the electric grid. We will install new equipment and update technology at the substation to improve reliability, support outage response, and better integrate renewable energy resources.

We appreciate your patience and understanding and will continue to update you on our progress.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at [powerlines101.dominionenergy.com](https://powerlines101.dominionenergy.com).

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

## ANTICIPATED CONSTRUCTION SCHEDULE

Construction start:  
late 2024 or early 2025

Completion: late 2025

Improves reliability and  
visibility of grid operations

Grid  
modernization

Work  
in your area

Substation  
expansion
