an existing 230 kilovolt (kV) electric transmission line in the City of Virginia Beach, Virginia between our Lynnhaven and Thalia substations. This project will also partially rebuild the line between our Thalia and Greenwich substations. Construction activities

between our Greenwich and Thalia substations are planned for August 2024. Preconstruction activities between Thalia and Lynnhaven substations are expected to begin in November, and construction is scheduled for January 2025.

Within a week, you may notice our contractors in and around the right of way installing construction entrances (permit numbers 2024-UTIL-12746, 2024-UTIL-11584, 2024-UTIL-07428). For more information about this permit, please call: City of Virginia Beach Permits at (757) 385-4211. These construction entrances should not impact local roadways.

We are dedicated to working safely and courteously in your community. Thank you for your patience while we complete this important reliability project.

This map is intended to serve as a representation of the project area and is not intended for detailed engineering purposes.

Protecting the grid against natural and man-made acts is a top priority. You can learn more about our commitment to safety at powerlines101.dominionenergy.com.
