

Level 2 & Fleet Charging Programs Participation Guide

The Level 2 and Fleet Charging programs provide EV supply infrastructure (“make-ready”) and EV supply equipment (“chargers”) installation and maintenance, giving customers a turn-key solution and control of their charging operations.

Smart

Guides, interactive tools, calculators, programs, and **incentives** to support electrification

Convenient

Monthly on-bill payments reduce upfront costs for EV charging infrastructure

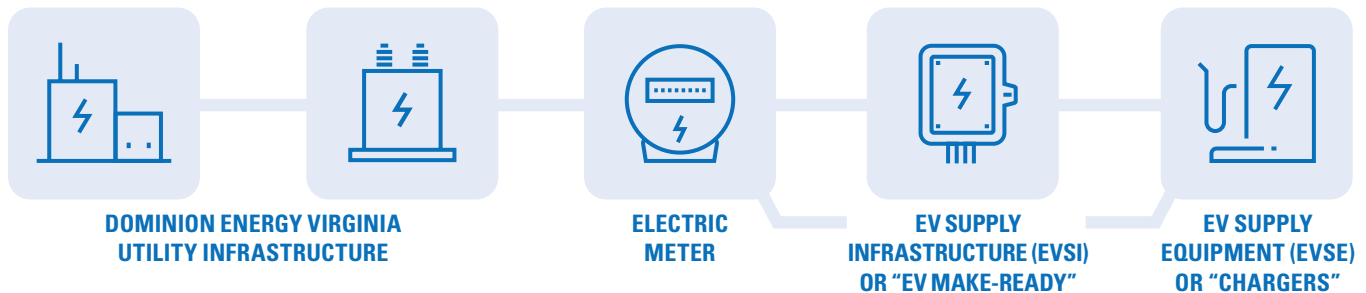

Equitable

No-cost charging solutions available to eligible customers in underserved areas

Flexible

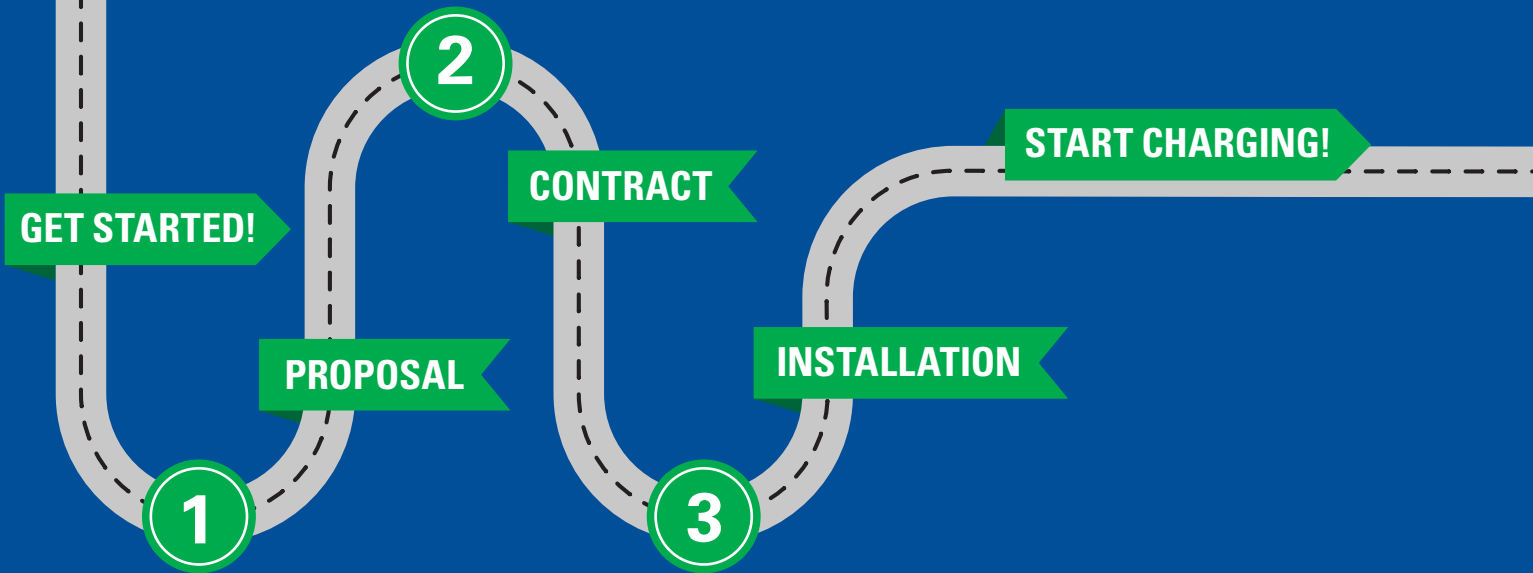

EV charging hardware and software options to meet specific customer needs

Participation Requirements

- Available to eligible Dominion Energy Virginia commercial and industrial customers.
- Customers must install a minimum of 2 charging stations.
- If Dominion Energy installs the charging stations, customers will select from Dominion Energy's list of charging station options. If customers install their own charging stations, the stations must meet minimum requirements.
- Customers are eligible for a 50% upfront incentive on the EVSI. Customers pay a monthly fee equal to 1.2% of the remaining installed cost of the EVSI. If Dominion Energy provides the EVSE, customers also pay a monthly fee equal to 1.3% of the installed cost of the EVSE.

How It Works

Your Role

Our Role

1

- Review program guidelines
- Select charging location
- Select charging equipment
- Attend site visit

- Assist with site & charging equipment selection
- Perform site visit
- **Provide proposal**

2

- **Acknowledge proposal**
- Provide site contact
- Confirm site design

- Develop site design
- Estimate costs
- **Prepare contract**

3

- **Review and return contract**
- Confirm site readiness
- Provide insurance certificate
- Set up charging network account

- Obtain permits and easements
- Construction
- Finalize costs
- **Install charging stations**

Start Charging!

- Maintain area
- Keep cellular connectivity
- Maintain insurance
- Remedy minor issues

- Remote monitoring
- Maintenance and repairs
- Customer support
